SURVEILLANCE

MARITIME PATROL AIRCRAFT

L410

Newly produced surveillance aircraft equipped with most updated mission management system, sensors and devices, for searching vast land and sea areas, patrolling borders and performing other special missions at appropriate patrol speed.

Due to aircraft characteristic, excellent STOL capability, long range and endurance, capabilities to operate under extreme temperature conditions -50° C to +50° C, low operation/maintenance costs and spacious cabin, the L 410 is an ideal platform for surveillance missions. Recently two new surveillance L 410 UVP-E20 aircraft have been delivered to Polish Border Guard.
